PREFACE.

We are often surprised to see how few business men fully realize the amount of labor and expense which is annually bestowed upon the Directory. While all who use the book know they can find within its pages the name, business and address of all men who reside in Troy proper, Albia, Lansingburgh, West Troy, Green Island, Centre Island and Cohoes, yet they seem to have no correct idea of the amount of labor which is required to collect, compile, and print them. Just consider for a moment, *first*, that we must gather them, one by one; *second*, that we must visit every dwelling, store, manufactory, and shop whatsoever between the southerly boundary of Troy and the northerly boundary of Lansingburgh, together with all those on the west side of the river between the Albany Rural Cemetery and the northerly boundary of Cohoes; *third*, that we must and do annually visit about four thousand of the buildings within this territory a second time for the purpose of making further inquiry in order to insure a greater degree of accuracy and completeness; *fourth*, the care and labor of compiling all this matter for the printer — then comes the proof reading, etc., etc.; when all this is carefully considered, then, even, only a part of the labor, care and expense is visible which must necessarily be performed to complete the work of making the Troy Directory.

A complete list of city officers, not having been appointed up to the time of going to press, has prevented us from printing them in full as in former years.

We regret to announce that we have never received sufficient patronage from the business men of either Lansingburgh, West Troy or Green Island, to make these departments of the Directory self-sustaining, and was it not that the business men of Troy proper who, as a rule, patronize us liberally, are very desirous of having them continued, and our expectation that the business men of these places would, in the near future, more fully realize their obligations to us, we should several years ago have felt compelled to omit them entirely from the book; but notwithstanding the neglect of duty on the part of many business men in these places toward us, we have bestowed the same care and pains upon the collecting and compiling of the names for these sections, that we have done in the city proper, and we confidently believe that the Troy Directory for 1881 will be found as complete and reliable in every department as is possible for a work of this kind to be made.

The steady increase of population in the territory which our canvassers go over to collect the names and other matter for this work, requiring a constantly increasing outlay of labor, care and expense, with each and every succeeding issue, will soon compel us to advance the price of the book. Ten years have now passed since any increase in the price per copy has been made, during which time we have annually borne the increased expense of collecting and compiling the names, the printing, the paper, in fact every item which goes to make up the book, until it has now become so great that we shall soon feel compelled to ask our patrons for relief.

The complete set of Troy City Directories from the year 1829 to the present issue are still kept on file at the office Nos. 8 and 9 First street, and our patrons will at all times be cheerfully given the use of them for reference. The frequency with which these books have been consulted by many, and especially by some of our legal fraternity who have often found in them facts of great importance, has caused us to give a higher value to Old Directories, as well as pleasure in being able to furnish their use to those wishing to consult them.

Of those whose names appeared in the first Troy Directory published in 1829, five have died during the past year, viz.: Francis G. Appleton, John V. Fassett, Thomas White, John F. McLaughlin and John Johnson.

We return thanks to the public generally, who have kindly aided our canvassers in collecting the names and other information for the work, and especially do we thank those who have so generously favored us with their advertisements, because without this patronage no full and complete Directory can be made except at a pecuniary loss to the publishers.

Changes made in Compiling this Volume.

Whole number of Additions and Alterations in preparing this edition				21, 567

Of the 33, 445 names contained in this issue, only 11, 878 are to be found in our edition of last year, without some alteration. By comparing these figures, it will be seen that on an average, only 35½–100 or about seven to every twenty of the names in this edition, now remain correct in that of last year.

STREET DIRECTORY,

Giving the name of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Second street No. 168 comes, you look at Second street, on page 14, and find that Liberty street crosses at 156, and Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

Centigram	1-100	10 cubic millimeters.	0.1543 grain.
Milligram	1-1000	1 cubic millimeter.	0.0154 grain.

Basis of the System.—1. The unit of length, the *meter*, is the ten millionth part of a quadrant of the meridian of Paris, being 39.37 inches, nearly. 2. The unit of surface, the *are* is the square of ten meters, or a hundred square meters. 3. The unit of capacity, the *liter*, is a cube whose edge is a tenth of a meter. 4. The unit of weight, the *gram*, is the weight of a cube of rain-water, whose edge is an hundredth of a meter. From these four primary units all others are derived according to the decimal scale.

Where used.—The system is adopted by the following countries: in exclusive use in France, Germany, Austria, Belgium, Holland, Italy, Spain, Portugal, Switzerland, Roumania, Brazil; in partial use in Denmark, Greece, Argentine Confederation, Venezuela; legalized, but not in general use in the United States, Great Britian, Russia, Sweden, Norway, Turkey, Mexico, Chili, Costa Rica, Equador, Peru, U. S. of Columbia, Uraguay. In Sweden compulsory law will take effect in 1889.

Abbreviations.—For meter, liter, and gram, the small initial letter is used, viz: m. l. g.; each division deci, centi, milli, also is abbreviated by using the small initial letters d. c. m.; but each multiple, deka, hecto, kilo, myria, is abbreviated by using the capital initial letter D. H. K. M.

Equivalents.—1 inch equals .0254 meter, or about 2½ centimeters; 1 foot equals .3048 meter, or about 30 centimeters; 1 yard equals .9144 meter, or about 10-11 of a meter; 1 mile equals 1609. meters, or about 1 6-10 kilometers.

1 U. S. liquid quart equals .946 liter, or a little less than 1 liter; 1 U. S. dry quart equals 1.101 liters; 1 U. S. gallon equals 3.785 liters, or about 3 8-10 liters; 1 U. S. bushel equals 35.24 liters, or about 4-11 of a hectoliter.

1 avoirdupois ounce equals .02835 kilogram, or a little less than 30 grams; 1 Troy or apothecaries ounce equals .03110 kilogram or a little more than 30 grams; 1 avoirdupois pound equals .45359 kilogram, or about 5-11 of a kilogram; 1 long ton—2240 pounds—equals 1016.05 kilograms, or about 1 metric ton.

REQUIREMENTS FOR ADMISSION.

Previously to examination the candidate must present testimonials of good moral character to the Director of the Institute.

For admission to Division D, at the opening of the Winter Session, the candidate must be at least sixteen years of age, and pass satisfactory examinations in Arithmetic, Geography, English Grammar, including Spelling; six chapters of Davies' Bourdon's Algebra, and five books of Davies' Legendre's Geometry. For admission to advanced standing, at the opening of either the Winter or Summer Session, the candidate must be correspondingly older, and pass satisfactory examinations in the same, and also in all the previous studies of the Division which he proposes to enter. These examinations are extended and rigorous, including both Principles and Practical Examples.

SESSIONS AND VACATIONS.

The Scholastic year is divided into two Sessions of nineteen weeks each. After the first, or Winter Session, there is a vacation of one week; and after the second or Summer Session, there is a vacation of thirteen Weeks.

The Scholastic year of 1881-2 will commence on Thursday, September 15th, 1881.

This Company owns the entire water-power of the Mohawk River at Cohoes, embracing the celebrated Cohoes Falls. Aggregate fall, one hundred and twenty feet, giving nearly ten thousand horse-power. The Company's gate-house and dam are among the finest structures of the kind in the United States.

The canals are so constructed as to give a succession of falls from one canal to another, varying in height from twelve to twenty-five feet. The power is leased by the Company, with land for factory buildings, in perpetuity, at an annual rental of about twenty dollars per horse-power, and considering the locality, is the cheapest in the country. It is an unfailing power, and during the past few years, while most of the water-powers in the country have failed for a time, Cohoes has had an abundant supply, without one minute's stoppage. About one-third of this magnificent power is unappropriated, and appurtenant thereto are some of the finest factory sites to be found anywhere.

Cohoes is situated at the confluence of the Mohawk and Hudson rivers, about four miles from Troy and ten from Albany, and is eligibly located with reference to New York and other markets, and possesses superior advantages for transportation to market, either by river, canal or railroad, having two canals and two railroads running through it. It is a thriving young city of nearly twenty thousand inhabitants, and contains some of the finest cotton and other factories in the United States.

Troy Fire Alarm Telegraph.

CENTRAL OFFICE, ARBA READ STEAMER HOUSE.

Location of signal stations, and rules and regulations to be observed in giving an alarm of fire.

Directions to those holding Signal Station Keys.

If a fire is discovered in your immediate vicinity, go to the nearest Box. Pull the hook all the way down *once* and let it go; wait a minute, and if you hear no tap in the Box or alarm from the Bells, go to the next nearest Box and pull the Hook as before.

If convenient, wait at the Box and direct the Firemen to the fire.

CAUTIONS.

1 Never open the Box or touch the Hook, except in case of Fire *near you.*
2 Never pull the Hook when the small bell in the box is tapping.
3 Be sure that your Box is locked before leaving it.
4 Never let the Key go out of your possession, except to some known responsible person to give an alarm.

EVERY POLICEMAN HAS A KEY.

NOTICE.

Complaints concerning the working of the Fire Telegraph, Irregular Striking of the Bells, or Tapping of the Boxes, Broken Wires, &c., should *in all cases,* be made to the Superintendent, A. D. Collins, at the Fire Alarm Office, Arba Read Steamer House.

MANNER OF STRIKING ALARMS.

Alarms of Fire will be sounded by striking the Number of the Signal Stations on St. Paul's, St. Joseph's, St. Mary's, St. Patrick's and St. Peter's Church Bells, and the Engine House Gongs, and tapping the same in all the Signal Boxes, as for example: For Station No. 3, three consecutive blows, followed by an interval of twenty seconds; Station No. 35, three blows, with an interval of ten seconds; then five blows, followed by an interval of twenty seconds.

ANDREW D. COLLINS,
Superintendent Fire Alarm Telegraph.

THE STATE SAVINGS BANK OF TROY

Will pay interest on special deposits; interest payable on the first of January and July in each year, which are the semi-annual interest days. When the deposit is drawn out, interest will be allowed only up to the last interest day. If the interest is not drawn out when due, it will be added to the principal, and will also draw interest.

Interest will commence on all special deposits on the first day of each and every month, if made on or before the third day; if made after the third day of the month, interest will commence on the first day of the succeeding month, excepting where the third day of the month is Sunday or a legal holiday—then interest will be allowed, if deposited the day after the third, from the first day of the month.

Having a Circulation double that of any paper published in this City, gives Advertisers more Circulation for a given amount of money than any other paper published in Troy, Albany or vicinity.

It is the largest paper in the City and County, being the same size as the large New York Dailies. It covers a field reached by no other single paper. It is read by all classes and by thousands who read no other paper. It is read more thoroughly than any other paper, for Sunday is the great reading day. People have more leisure to read advertisements on Sunday than on any other day, consequently with its large Circulation it presents features to advertisers that no other paper in this vicinity can.

It is the paper above all others in this vicinity in which to Advertise "Wants," "To Let," "For Sale," and similar Advertisements.

FRANKLIN SCOTT,

ATTORNEY AT LAW AND COUNSELOR IN PATENT CAUSES,

SOLICITOR OF AMERICAN AND FOREIGN

PATENTS,

North Bennington, Vt.

After an experience in patent matters extending over a period of twenty years, I offer my services to inventors in Troy and vicinity, and I confidently believe that my facilities for the transaction of patent business in the United States Courts and in American and Foreign Patent Offices are unsurpassed by any Patent Agency in this locality.

Acting as the Associate Attorney in the United States for the Patent Agency of ROBERTSON, BROOMAN & CO., London, the oldest establishment of the kind in England, I am enabled to execute on this side of the water all papers necessary to obtain British patents, so that inventors seeking English patents may know, before their British applications are lodged, in what shape their inventions have been presented. The general custom is to turn the whole case over to the English Agents, who handle the matter as they please, without consultation with the inventor—a practice often prejudicial to the inventor's interest.

Having a complete set of English and United States Patent Reports covering a period from 1617 to date, as well as a good selection of legal and scientific patent authorities, I am able to furnish information of the highest value to the inventor and the litigant. No charge made for preliminary consultation.

CHARGES.

The customary charge of $5 is made for preliminary searches on inventions.

Fee for obtaining United States Patents ranges from $30 upwards, according to the complexity of the case.

Where applications are made after a preliminary search, the fee for search will be applied on the regular attorney's fee.

Re-issues, extensions, copyrights, rejected cases and caveats prosecuted on reasonable terms.

Cost of English patents from $175 upwards. This covers English Government fees and all other expenses.

WM. H. YOUNG, Troy, N. Y., will furnish applicants with information concerning this Agency.
